Summer Flat Sandals – The Edit

“Cinderella is proof new shoes can change your life”

As the weather finally turns nicer (hooray!), this is the perfect edit, look no further to find your perfect pair of flat summer sandals to wear across your Summer day time wardrobe. As always there are high street, treat and luxury options available, I particularly love the selection in Mint Velvet this season, great prices and I have personally always found their shoes to be comfy and great quality. As with any accessory, you can use your sandals to add a burst of colour to your outfit or to enhance a colour/tone within your ensemble.
