# The Importance of Accessories

# “Accessories are the exclamation point of a woman” Michael Kors

In the world of fashion and styling it is not all about the clothes, actually for me its more about how you accessorise a look that actually makes it stylish. It allows you to enhance, elevate and individualise your look. It also allows you the freedom to transition a outfit from day to night, perhaps swapping those boots for heels, stud earrings to statement pieces and adding a fabulous belt to show off or create your curves.

## Personality

Equally it allows you to express who you are, bringing perhaps a main stream look and turning it into your own, this could be through a pop of colour or adding a well tied scarf, the possibilities are endless.

## Flexibility

It allows you to repeat the same outfit time and again but dressing it differently gives you the flexibility of a whole new style. Just be sure to pick out different accessories that accentuate the ensemble.

## Add colour

Use your accessories to embrace colour, small accents here and there. For example adding coloured earrings can transform a basic white tee into instant glamour.

## What about Make up as an Accessory

I use lipstick as one of my accessories, I love using bright vibrant lipsticks within my personal styling, for me they uplift my mood and tie a whole look together.

**Ultimately fashion accessories allow you to individualise a outfit and can also really help hone your style.**

# Natural stone & Rose Gold bracelets

# “Beauty the way nature intended” Clockface Beauty

You will see within “My Style” that I hardly ever don’t have accompanied with my outfit the beautiful bracelets we designed and have handmade for Clockface Beauty.

For me they have almost become a comfort blanket as well as a fashion accessory, yes they are beautiful, the stones each carefully chosen, but not just on their appearance. Each has its own property, the Blue Angelite is a powerful stone that was discovered in Peru in the 1980s. Associated with the wind,

it has a beautiful milky blue appearance that is believed to have a calming effect on your mind and the Peruvian Pink Opal is still worshipped today as a healing and protective stone. It is considered one of the most important healing stones that can have a profound effect on a person's mood. It's often referred to as the "stone of spiritual awakening" due to the powerful vibrations that it holds. I really feel that when I wear them.

I cannot recommend enough for both this reason and their versatility when styling with your outfit, head on over and take a look. They can be worn individually or stacked as pairs or a trio, my favourite combination is the Peruvian Pink Opal paired with the Swarovski pearl.

Peruvian Pink Opal & Rose Gold

Swarovski Pearl & Rose Gold

Angelite & Rose Gold

I'd love to hear what which is your favourite.
